CRESTED GECKO BASIC CARE GUIDE

TEMPERATURE: **74-80 DAYTIME, 64-70 NIGHT, NO EXTRA HEAT**
HUMIDITY: **CYCLE BETWEEN 80% NIGHT TO 40-50% DAYTIME**
FEED: **CRESTED GECKO DIET EVERY 1-2 TO 2-4 DAYS**
LIGHTING: **NOT REQUIRED, TROPICAL UVB 5.0 IF IMPLEMENTING**

CRESTED GECKOS ORIGINATE FROM THE ISLAND OF NEW CALEDONIA.
IN THE WILD, DEPENDING ON THE SEASON, CRESTED GECKOS EXPERIENCE NIGHTTIME LOWS AS LOW AS 55 AND DAYTIME HIGHS AS HIGH AS 90. BASED ON THIS, WE RECOMMEND CRESTED GECKOS BE KEPT AT AN AVERAGE ROOM TEMPERATURE OF 74.
IF YOU HAVE THE ABILITY TO REGULATE YOUR TEMPS, ALLOWING THE TEMPERATURE TO GO AS HIGH AS 78-80 DURING THE DAY AND THEN DROPPING TO 65-70 AT NIGHT IS THE BEST..

HOT TIP: IF YOUR HOUSE GETS UP TO 80-90 DEGREES FOR A FEW HOURS AT PEAK HEAT DURING THE SUMMER (4-9PM USUALLY), DON'T PANIC!! HELP YOUR GECKO GET THROUGH IT WITH EXTRA MISTING DURING THAT PERIOD AND OFFER A SHALLOW WATER DISH!
KEEP ENCLOSURE AWAY FROM VENTS.

MIST GECKOS EVERY EVENING , HEAVY ENOUGH TO COVER THE CAGE FURNITURE AND SOAK YOUR SUBSTRATE/LINER. IF SUBSTRATE IS STILL WET THE FOLLOWING EVENING, MIST ONLY THE WALLS OF THE ENCLOSURE LIGHTLY. MIST HEAVILY FOR DRIER HOME ENVIRONMENTS.
DO NOT OVER SPRAY, WET ENCLOSURES ENCOURAGE MOLD, MILDEW AND BACTERIA GROWTH. ALLOW A DRY OUT PERIOD!

MIX PANGEA CGD: FOLLOW INSTRUCTIONS ON PACKET, MIX 2:1 TO KETCHUP CONSISTENCY, LET SIT AFTER MIXING.

.75 OZ CUP SHOWN

SUBADULT/ADULT

JUVENILE/ 1+ YEAR

YOUNG GECKO/ACCLIMATING GECKO

OFFER FOOD IN THE AMOUNT RECOMMENDED FOR YOUR GECKO AND REMOVE AFTER 48 HOURS.
DIFFERENT GECKOS HAVE DIFFERENT APPETITES-
YOUNGER GECKOS EAT MORE FREQUENTLY THAN OLDER GECKOS. EXPECT TO FEED EVERY 2 DAYS FOR BABIES/JUVENILES AND 2-4 DAYS FOR OLDER GECKOS.
DIRTY TRICK: LOOK FOR POOP TO CONFIRM IF YOUR GECKO IS EATING IF YOU CAN NOT TELL BY LEFTOVER VOLUME!
BUGS ARE OPTIONAL BUT DEFINITELY RECOMMENDED, THEY ARE UNDENIABLE FOR ACCELERATING GROWTH RATES.
TONG FEED, OFFER IN A CUP, OR DROP INTO THE ENCLOSURE WITHIN SIGHT OF THE GECKO SOME CALCIUM+D3 DUSTED BUGS 1-2X A WEEK. (DUBIA ROACHES OR CRICKETS)
WE RECOMMEND, AND FEED, ONLY DUBIA ROACHES WHERE AVAILABLE.
